Profile

Principal Software Tester with over 20 years of experience in software testing, automation, and DevOps across industrial and enterprise systems. Proven expertise in designing scalable test frameworks, leading Agile/Scrum teams, and delivering high-impact, quality-driven solutions. Demonstrated success in CI/CD pipeline development, stakeholder engagement, and mentoring cross-functional teams. Certified in project management and test automation tools, with a track record of driving efficiency, reliability, and innovation in complex environments.

Education

Master of Science in Computer Science, Liverpool John Moores University

2021 – 2022

Post Graduate Diploma in Software Development (Full Stack), IIIT-Bangalore

2020 – 2021

Bachelor of Computer Applications, ICFAI University

2007 – 2011

Diploma in Electronics & Communication Engineering, VET BVL Polytechnic, Bangalore

1998 – 2001

Key Skills

- Python, Selenium, Playwright, Appium, PyWinAuto, Serenity BDD, Cucumber, Rest Assured
- CI/CD, GitHub Actions, Jenkins, Taurus, JMeter, Postman, SQL, AWS, Azure, Docker
- ReactJS, Electron JS, OPCUA, QT Framework, Web API, Agile, Scrum, Kanban
- Test Architecture, Test Management, Stakeholder Engagement, Team Leadership
- Performance Testing, UI Testing, Mobile Testing, Desktop Testing, API Testing

Professional Experience

Lenze Software Development Center India, Principal Software Tester

04/2021 – Present

- Reduced manual test cycle time by 60% through implementation of Python-based automation frameworks for embedded application testing on controllers and devices.
- Improved test coverage by 80% using Serenity BDD, Selenium, Rest Assured, and Playwright for web and desktop applications.
- Increased automated test deployment efficiency by 50% via GitHub Actions CI/CD workflows and Docker.
- Enhanced stakeholder visibility with ReactJS dashboards displaying test artifacts from AWS/Azure.
- Led Agile/Scrum ceremonies and mentored junior testers, improving team velocity by 20%.

Honeywell Automation India Limited, Lead Engineer - QA Automation

06/2005 – 03/2021

- Delivered automation frameworks for SCADA, embedded, and desktop systems, reducing regression effort by 75%.
- Increased test throughput by 35% using Jenkins-based CI/CD pipelines and automated deployment scripts.
- Reduced defect leakage by 40% through rigorous API and performance testing using Postman and SQL.
- Managed cross-functional teams and client engagements, resulting in 95% stakeholder satisfaction.
- Received multiple awards for productivity, innovation, and customer collaboration.

Transtech Projects Private Limited, Senior Software Developer

02/2003 – 05/2005

- Developed data acquisition systems that improved plant monitoring accuracy by 30%.
- Automated inventory reporting, reducing manual effort by 40% using Crystal Reports and VB6.0.

Career Achievement

Test Automation Leadership

- Designed and implemented over 10 automation frameworks across desktop, web, and mobile platforms using Python, Selenium, Playwright, Appium, and Serenity BDD.
- Reduced manual testing effort by 80% and accelerated release cycles by 50%.

CI/CD and DevOps Impact

- Developed CI/CD pipelines using GitHub Actions, Docker and Jenkins for continuous testing and deployment.
- Improved deployment reliability by 70% and reduced integration issues by 50%.

Agile Project Management

- Led Agile/Scrum teams with sprint planning, retrospectives, and stakeholder reviews.
- Managed cross-functional teams of up to 12 engineers, improving delivery timelines and team productivity.

Stakeholder Engagement

- Handled day-to-day customer interactions and project management activities.
- Successfully delivered multiple enterprise-grade solutions aligned with client expectations.

Certifications & Continuous Learning

- Certified in Project Management Foundations, Serenity BDD, and Telecom Specialization.
- Pursued leadership development through Lenze India Management Development Program (2024–2025).
